

GIGABAG (\$GIGA) Whitepaper

GIGABAG (\$GIGA) isn't just another meme coin - it's a revolutionary financial experiment in decentralization, community-driven value creation, and sustainable rewards. By implementing a HODL Multiplier, Time-Lock System, and FOMO Mechanics, GIGABAG ensures that long-term holders are mathematically rewarded while discouraging short-term dumping.

****Tokenomics:****

- Total Supply: 1,000,000,000 GIGA
- 50% Presale - Public distribution to ensure a fair launch.
- 30% Liquidity (Locked for 1 Year) - Locked liquidity ensures price stability and prevents rug pulls.
- 10% Community Rewards & Staking - Incentives for long-term holders and active community members.
- 10% Marketing, Buybacks & Ecosystem Growth - Fueling viral marketing, partnerships, and development.

****The GIGABAG Unlock System:****

Every purchase gets 2X tokens, but 50% remains time-locked to prevent dumps. The longer you hold, the faster your locked tokens unlock.

****Sell Tax & Redistribution:****

- 12% Sell Tax:
 - 4% Auto Buybacks & Burns
 - 4% Community Airdrops & Unlock Boosts

- 2% Liquidity Pool Support
- 2% Marketing & Expansion

****Security & Trust:****

- 80% Liquidity Locked for 1 Year
- Renounced Ownership for full decentralization
- Buybacks & Burns for sustainable growth
- Fully Transparent - No Private Sales

****How to Buy:****

1. Get a Solana-Compatible Wallet (Phantom, Solflare, Trust Wallet)
2. Fund Your Wallet with SOL
3. Send SOL to the Presale Wallet: 4fnuBssdjFTwS5hziuzsFNAd9J3XFYJHdxubKjfDTbWK
